

Experience

Rocket Fuel, Software Engineer *San Francisco, CA* (October 2014 - April 2016)

- ❖ Tech lead on globalization project, implementing support for different countries and timezones.
- ❖ Maintained a Ruby on Rails API, which prepares and formats data to be picked up by our back-end AI teams.
- ❖ Implemented new front-end features and bug fixes using Backbone / Marionette JS.
- ❖ Increased test coverage for new and existing features with RSpec and Mocha.
- ❖ Worked and participated in small, agile scrum teams.

Codervox, Lead Organizer *Austin, TX* (January 2014 - May 2014)

- ❖ Created a nightly programming class that teaches programming fundamentals and web programming basics to beginners.
- ❖ Designed an intensive curriculum, which includes Ruby, HTML, Sinatra, and JSON API usage.

Speakerpedia, Contract Ruby Developer *Chapel Hill, NC* (November 2013 - January 2014)

- ❖ Worked directly with sales team and project managers to implement UI changes and fix bugs.
- ❖ Deployed changes daily to a large scale Rails application.

IBM, Software Developer Intern *Austin, TX* (June 2012 - August 2012)

- ❖ Designed and developed a survey distribution system, allows project managers to create surveys for different user groups and track survey status via a control panel.
- ❖ Worked in tandem with project manager to prioritize and fix various user-submitted bugs.

StyleSeek, Software Engineer Intern *Cambridge, MA* (May 2011 - August 2011)

- ❖ Implemented a clothing recommendation engine that presents a user with a feed of apparel based their personal taste.
- ❖ Participated in the MIT Entrepreneurship Center Summer Program.

Personal Projects, www.github.com/betterwithpesto

Rgb, A portfolio website for photographers www.rgb.io

- ❖ Utilized Flickr's API to create a service which automatically generates a photo homepage from any user's Flickr account.

OrangeSend, Short links to e-mails www.orangesend.com

- ❖ Developed a service that generates an easily sharable link to any email, which alleviates the need for mass email forwarding.
- ❖ Earned third place at the 2012 Lone Star Ruby Conference hackathon hosted by Capital Factory.
